CANOPIES MADE TO ORDER

Our canopies are made to order and come in a range factory set sizes. If however you require a specific dimension, enquire about our bespoke canopies which can be manufactured to specific dimensions and specification.

GLASS CANOPIES

FEATURES

We manufacture all roofs to order and check every roof with our in-house software. Our CAD system (Computer Aided Design) checks each design to ensure it can meet a minimum load.

- Minimum snow load of 60Kg/m²
- We can meet any wind load subject to specification.
- Using powder coated aluminium and impact modified uPVC all our canopies are maintenance free
- All roofs carry a 5 year manufacturers warranty.
- Glass roofs use only British toughened safety glass
- Polycarbonate options are available. Polycarbonate is virtually indestructible and has an impact strength 200 times that of toughened safety glass.

Amazing value that incorporates

- ☒ Looks
- ☒ Practicality
- ☒ Low Maintenance

Glass canopies and glass effect polycarbonate allow you to see the sky and clouds with an uninterrupted view, this gives an elegant feel of quality to the roof. Glass is more expensive than polycarbonate, however it is easier to clean and has a longer life span. Polycarbonate although cheaper than glass is 200 times stronger than toughened safety glass.

Please note multi wall polycarbonate is not clear like glass or glass effect polycarbonate. Speak to us about options.

CLASSIC RANGE

BESPOKE FEATURES

Our roof system allows you to enhance the look of your canopy by adding additional features. We have a wide range of extras such as ornate Victorian support posts and gallows brackets. We can paint roofs to match your house colour or we have wide selection of maintenance free wood effect foil finishes to choose from, also ask about our new range of side screens for additional privacy.

Side Screens

Before

After

TRADITIONAL FEATURES

FREQUENTLY ASKED QUESTIONS.

Do I require planning permission ?

Canopies are not counted as permitted development and so, in most cases, do not require planning permission.

Can I install them myself ?

Yes, all of our roof kits come complete with everything you need delivered to your door. We fully prepare each one ready for installation, no drilling or cutting, everything is done.

How much do they cost ?

You will be pleasantly surprised just how little a canopy for your garden can cost. Measure the width and projection of the area you would like to cover and call your stockist on the back for an instant quotation.

IN HOUSE DESIGN

TECHNICAL SUPPORT. We have an in-house design team that can help with designing your ideal canopy. Canopies can be made to go around corners, between existing walls and to fit in perfectly with your existing patio. We can colour match to your existing windows or house colour and we can tint glass and polycarbonate in a range of colours. Please ask if you

have any questions regarding the style and type of canopy you have in mind and we will be happy to make that idea come to life. We offer a range of side screens for privacy and additional protection against wind and rain. With uV protection you can store your garden furniture outside knowing that it is protected from the elements.

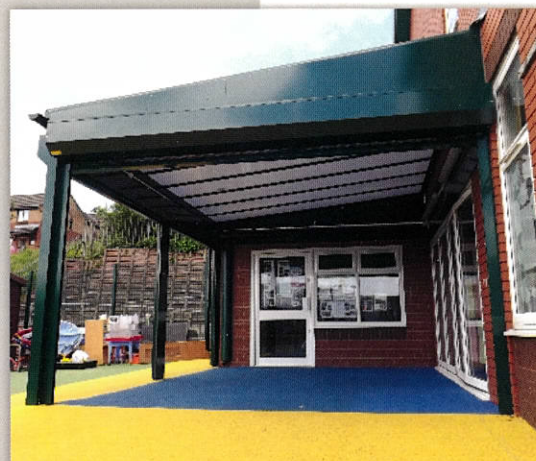

COMMERCIAL ENCLOSURES

As well as domestic canopies we also design and manufacture bespoke commercial canopies and enclosures. We have a dedicated commercial design team on hand to offer help and advice. From your first ideas to the finished product our team of designers, with the latest Computer Aided Design software, can help you bring your ideas to life.

ON SITE HELP

Site visits can be arranged to help you plan and design your project. Contact your stockist and ask about an onsite visit. It can make all the difference.

1

Stage 1

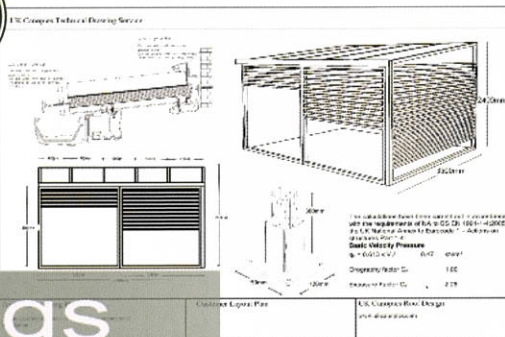

Contact our design team with your ideas and we can offer you advice and guidance on your project.

Design

2

Stage 2

Once we have your ideas and we agree a specification we can then design and plan your project with drawings.

Drawings

Stage 3

Manufacture. We bring your idea to life !

Completion

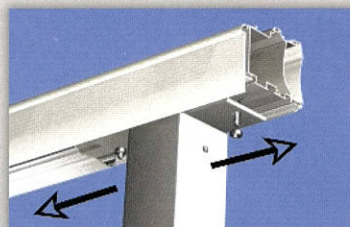

SPECIFICATION

We design bespoke canopies to order so you can change the specification of your roof to suit your particular needs. For example we can offer a flush fitting aluminium gutter or conventional PVC guttering.

Aluminium Flush Fit Guttering

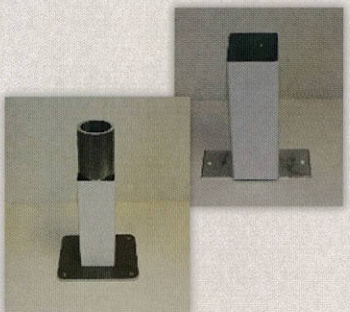

STANDARD PVC GUTTERING

SIMPLE ADJUSTABLE LEGS

Our standard eaves system (used with the PVC gutter) has a unique track system which allows the support legs to be moved and adjusted by simply loosening the bolts and sliding the support along the track.

FEATURES

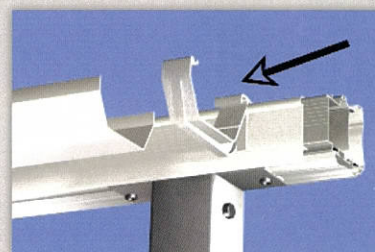

REINFORCEABLE SUPPORT LEGS

Support legs are powder coated aluminium, for low maintenance, and can be reinforced to ensure our roofs exceed minimum wind and snow loadings. Support legs come with surface fixing brackets but can also be concreted directly into the ground. We offer both square and round supports.

CLIP-FIT GUTTER BRACKETS

All roof kits leave our factory ready for installation. Profiles are cut to size, holes are drilled and all fixings for the roof kit are included. Features such as the clip fit guttering allow for quick and simple installation.

QUOTATION

Need a quotation ?

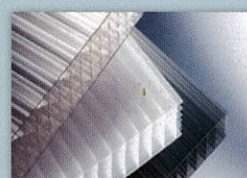

Simply take down the following information and contact us

- .Width ☒ Width of the area you would like to cover
- .Depth ☒ Depth of the area you would like to cover
- .Photo ☒ A simple photograph of the area
- .Email ☒ Email to us at the address on the back page
